Saved the client roughly \$400k
Purchased and installed 90% of the product within a month of placing the order.

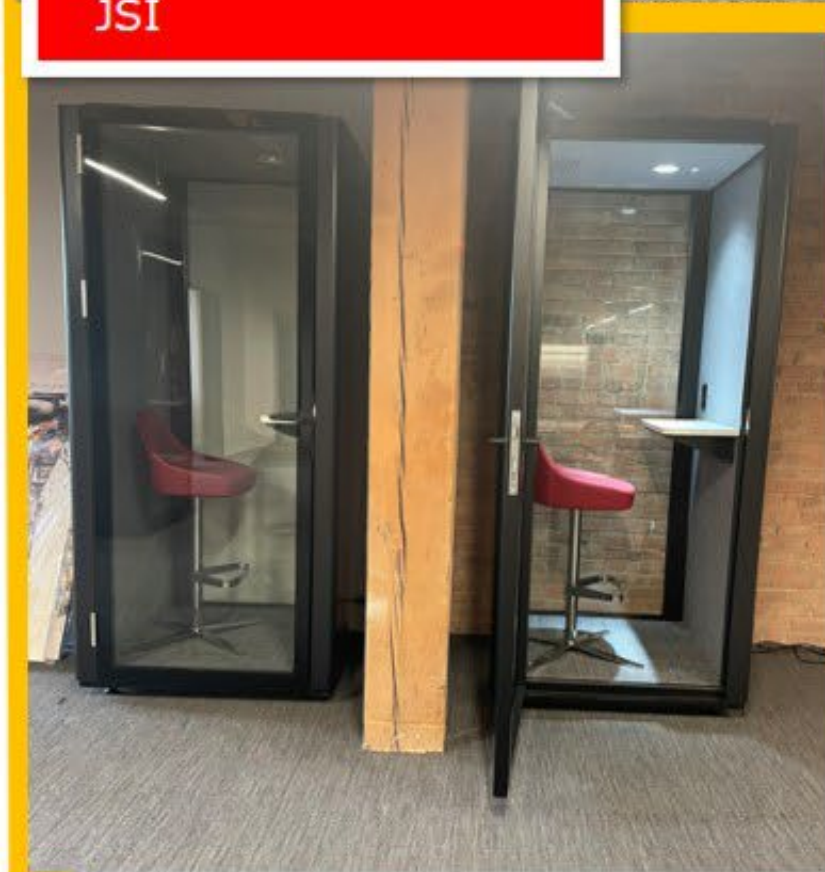

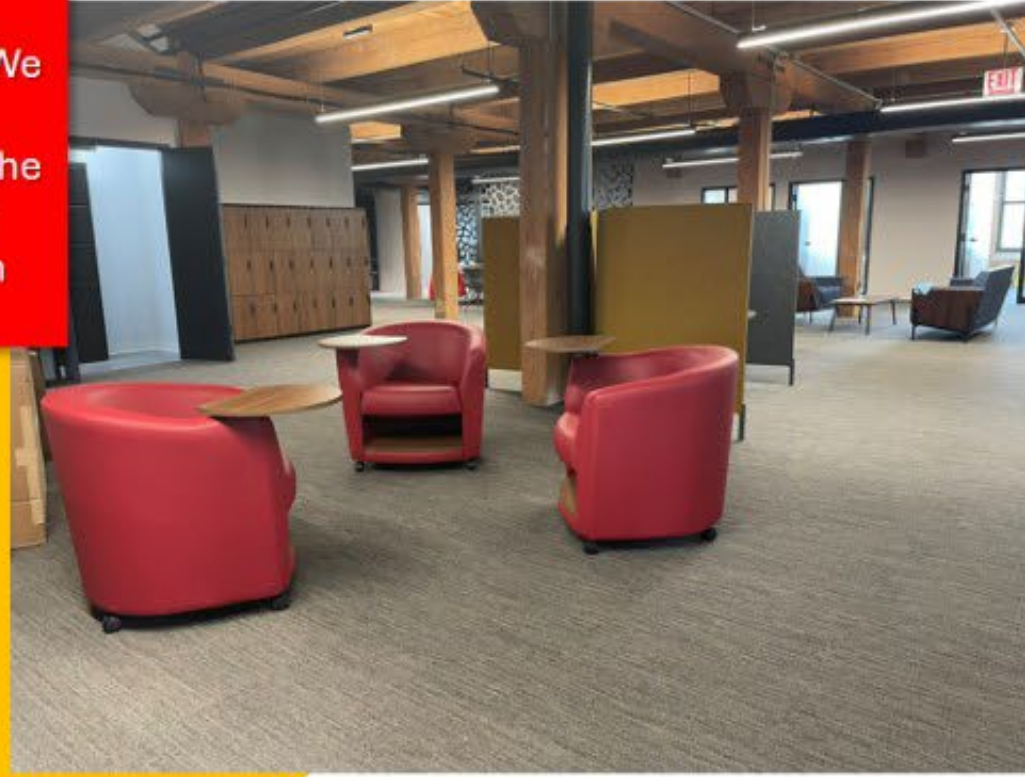

Allowed the client to meet their needs with all matching product with a quick turnaround time and under their budget.

One Hope United- Pilsen IL Non Profit

This was our fifth location we have done with this client. We were able to save the client 20% off their budget by consolidating product to minimal vendors that provided the highest discount. We have managed to obtain a common style and design between all locations with allowing them to still have flexibility depending on the space needs.

COE Distributing

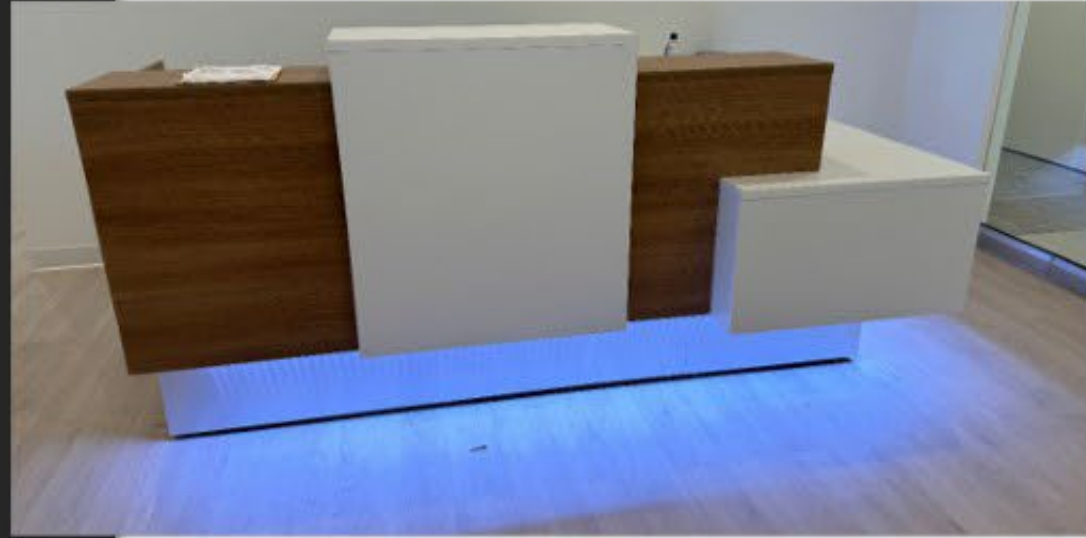

Warehouse of Fixtures was chosen to decommission and relocate four floors of furniture. Additionally, we were awarded the project to design and install new conference, meeting, and collaborative spaces. Our solution involved reusing components from the existing workstations while introducing new parts to transition from a 6'x8' to a 6'x6' standard, effectively increasing the density of the space. We also reduced the panel height from 48" to 42", fostering greater employee collaboration. The total project cost was nearly \$1,000,000 and spanned over a year. We estimate that the client saved 50% off retail prices by utilizing our combined offerings of new, used, and refurbished options.

Tennsco

This Non-profit organization looked to us to provide a cost conscious, creative furniture solutions standards package that could be utilized amongst their many Midwest locations. By combining our new and remanufactured products we were able to help lower their overall furniture budget without sacrificing their essential and desired requirements.

ENGINEERING FIRM:

Vendors Used:
